How to give this test

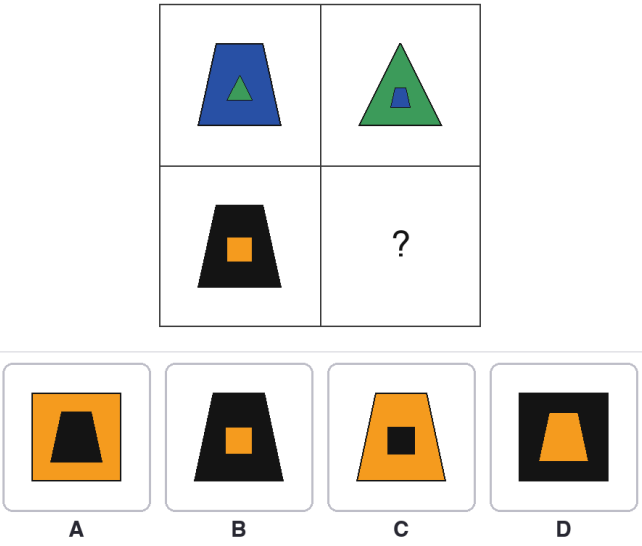

- Read each question aloud once, slowly, as the test administrator will. No reading is needed at this level.
- Find a quiet table and allow about 10 to 15 minutes. Do not give hints.
- Your child fills in one bubble under each question. Guessing is fine: the CogAT has no penalty for wrong answers.
- Score it with the answer key on page 8, then talk through any misses together.

Answer key

#	Question type	Answer	Why
1	Figure Matrices	**A**	The inside and outside shapes trade places, and each keeps its color. The orange square goes outside, the black trapezoid inside.
2	Paper Folding	**A**	The corner folds on the slanted line. Each hole gets a twin across that line, so 2 holes become 4.
3	Figure Classification	**D (orange arrow)**	All three arrows point right. Only D points right too.
4	Number Analogies	**A (4 rabbits)**	1 duck becomes 3, two more. So 2 rabbits become 4.
5	Number Puzzles	**D (1 star)**	The left side has 5. The right side has 4, so it needs 1 more.
6	Number Series	**C (2 beads)**	The beads climb and come back down: 2, 4, 6, 4, so 2 comes next.
7	Picture Analogies	**D (ice cream cone)**	You smell flowers with your nose. You taste ice cream with your tongue.
8	Sentence Completion	**A (screwdriver)**	You turn a screw with a screwdriver. A wrench turns bolts.
9	Picture Classification	**B (teapot)**	The bucket, mug, and watering can all have handles. So does the teapot.
