Answer key

#	Question type	Answer	Why
1	Figure Matrices	**C**	The figure turns a quarter turn counterclockwise and the two halves trade colors. Do both to the trapezoid.
2	Paper Folding	**D**	Two folds make 4 layers, so one punch makes 4 holes, mirrored across both folds.
3	Figure Classification	**D (3 diamonds)**	Every box has 3 shapes. D is the only other group of 3.
4	Number Analogies	**C (2 bees)**	5 chickens become 3, two fewer. So 4 bees become 2.
5	Number Puzzles	**D (2 stars)**	The left side has 3. The right side has 1, so it needs 2 more.
6	Number Series	**B (3 beads)**	The counts repeat 2, 3, 4. After 2 comes 3.
7	Picture Analogies	**D (footprint)**	A rubber stamp leaves a stamped star. A boot leaves a boot print.
8	Sentence Completion	**C (rabbit)**	"But" signals a contrast. The turtle is slow, so the missing animal is fast.
9	Picture Classification	**D (domino)**	The mushroom, dice, and dress all have spots. So does the domino. The flag is checkered and the other two are striped.
