How to give this test

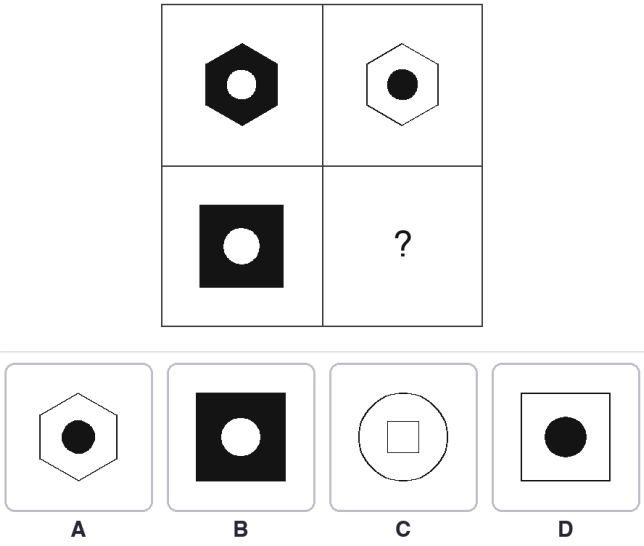

- Read each question aloud once, slowly, as the test administrator will. No reading is needed at this level.
- Find a quiet table and allow about 10 to 15 minutes. Do not give hints.
- Your child fills in one bubble under each question. Guessing is fine: the CogAT has no penalty for wrong answers.
- Score it with the answer key on page 8, then talk through any misses together.

Answer key

#	Question type	Answer	Why
1	Figure Matrices	**D**	The outside and inside shapes trade colors. The black square with a white dot becomes a white square with a black dot.
2	Paper Folding	**A**	The top folds down, so the hole repeats across the fold: 2 holes, one above the other.
3	Figure Classification	**D (green diamond)**	All three shapes are green. Only the diamond is green too.
4	Number Analogies	**C (2 chicks)**	3 frogs become 4, one more. So 1 chick becomes 2.
5	Number Puzzles	**C (2 squares)**	The left side has 4. The right side has 2, so it needs 2 more.
6	Number Series	**B (6 beads)**	Each string has 1 more bead: 3, 4, 5, so 6 comes next.
7	Picture Analogies	**D (ice cream cone)**	You smell flowers with your nose. You taste ice cream with your tongue.
8	Sentence Completion	**B (nest)**	Birds lay their eggs in a nest.
9	Picture Classification	**C (butterfly)**	The bee, eagle, and bat all have wings. So does the butterfly.
